Maximum Marks	4 Marks

Empathy Map Canvas

Target User: A customer who wants to book a cab quickly and safely.

Says	Thinks
"I need a cab immediately."	"Booking should be simple and fast."
"Is a cab available near my location?"	"Is my personal information secure?"
"I want an affordable ride."	"I need to check my booking status."
"Will I reach my destination on time?"	"Can I trust this cab booking service?"

Does	Feels
Searches for available cabs online	Books a ride using the application
Worried about cab availability	Happy when booking is confirmed instantly
Compares different booking options	Checks booking history and ride details
Frustrated by long waiting times	Satisfied with a smooth and secure booking experience

Pains & Gains

Pains	Gains
Difficulty finding available cabs	Easy access to booking history
Quick and easy cab booking	Insecure or complicated booking process
Long waiting time for cab confirmation	Secure login and reliable booking system
Instant booking confirmation	Manual booking process
Lack of ride tracking and booking history	User-friendly online booking platform
